# Peg Loom Weaving

Peg Loom Weaving is a simple and accessible form of weaving that uses a special loom with pegs instead of warp threads. It is a fantastic way to create textured fabrics, including rugs, wall hangings and cushions. The process is relatively quick and forgiving, making it ideal for beginners.

The beauty of Peg Loom Weaving lies in its simplicity. You don't need complex equipment or extensive knowledge of traditional weaving techniques. The "pegs" on the loom act as the warp and you simply weave your weft material over and under them, creating a dense and durable fabric.

You will leave with a beautiful Peg Loom rug, table runner or place mat that is a wonderful expression of your talent.

Hope you can join us for a full day on Saturday June 27th from 10 to 4. (Bring a lunch) And a half day on Sunday June 28th from noon to 4 (Bring a lunch or snack)
