Mindful Flower Arranging Class- \$30.

Flowers have the ability to heal the soul and fill the heart with joy.

Whether it's wildflowers from a walk, flowers from your own garden, or store bought blossoms, creating your own arrangement in a variety of vessels to share or enjoy for your self can be a very rewarding experience.

Come learn about the meaning of certain flowers and how to mindfully create your own floral mini masterpiece.

Everything will be supplied & you leave with a vase of beautiful flowers that you arranged.

Session led by
Theresa Riley, former garden center owner and now flower fanatic.
